

1 September 2006

**Global Health Partner plc ('GHP' or the 'Company')  
Acquisition of Gothenburg Medical Center AB**

GHP announces that it has entered into an agreement to acquire a 75 per cent interest in Gothenburg Medical Center AB ('GMC'), a sports medicine clinic in Gothenburg.

**Acquisition details**

GHP is acquiring 75 per cent of GMC for an estimated maximum payment of £0.74 million in cash. In the 12 months to December 31, 2005, GMC had revenues of £2.48 million and a loss after tax of £.065 million. Gross assets were £1.12 million. The remaining 25 per cent will be held by GMC's management and clinicians. The transaction is expected to complete no later than September 29, 2006.

This acquisition was outlined in the Company's AIM admission document dated 25 July 2006 and fits into the Company's strategy to invest in specialised healthcare services and to incentivise management and clinicians through equity participation in their respective businesses.

**GMC**

GMC operates a sports medicine clinic located in Gothenburg that has, in particular, among its range of surgery and rehabilitation operations, a strong international reputation for its transplantation method for cartilage repair, primarily for knee joints. The Directors believe that on completion of the acquisition, the clinic's operating procedures can be enhanced to improve patient flow and that the clinic can be developed to enable other service-lines of GHP, such as spine surgery, to operate within its premises.

Commenting on the proposed acquisitions, Per Batelson, Chairman and Chief Executive of GHP, said:

'This acquisition provides a very good opportunity for GHP to enter a new service area within the domestic Swedish market. In partnership with GMC's management and clinicians we can both develop GMC's business at the clinic and additionally roll-out our existing GHP spine surgery business and potentially other service-lines from this platform.'
