Note to Editors:

Global Health Partner PLC (‘GHP’) is the AIM listed provider of Specialised Healthcare Services (Service Lines) operating in Sweden and the UK following its August 2006 flotation and initial fund raising. GHP has invested in acquisitions and start-up clinics in selected clinical areas of spine surgery, dental implant surgery, bariatric surgery and obesity treatments, and orthopaedic surgery and sports-medicine, with a view to creating Service Lines in each by rolling-out a standardised service model. GHP judges that these chosen Service Lines offer real growth opportunities and good margins both in the Scandinavian market in which it currently carries out its business and the wider European healthcare markets.
